Dos nuevos colegas

Otro tanto es el gusto de recibir
en nuestra mesa de Re-
dacción la amable visita de dos
nuevos colegas.

Ellas son "El Pionero" y "El
Comercio", que han llegado
por primera vez a la capital.
Son jóvenes hombres de bríos y de
espíritu semejantes a los
que aparecen en los diarios
que nos referimos a ellos.

Bienvendidos sean tan
valiosos compañeros de
trabajo y patriótica labor, un
poco de amistad y de
solidaridad, una vez más—con
muy lindas y dulces sonrisas
y amistoso trato.

Asimismo debe manifestar mi
gratitud a todos los encargados

AVISOS OCASION

Allies determined to fight to a finish

Advance of the Italians against Robereto progressing

BERLIN.—Charles Wilson, a Clark in the United States consulate here, has been imprisoned by the German authorities pending an investigation of the escape of an alleged French spy, Georges Guillaumet.

It is said that Wilson could not possibly know the applicant for the passport as being an American citizen, and consequently the document was issued. Just before the office was surrounded, he had disappeared, having been arrested near St. Petersburg and brought back to Berlin.

GENEVA.—Delegates today reported that the Austrians suffered a severe check when a column of 20,000 men, who had advanced from Salzburg, were repulsed at 10,000 yards.

The Austrians were forced to abandon several of their trenches, and were pursued in their retreat by the Russians for a distance of six miles beyond the fortress of Innsbruck.

THE HAGUE.—The Hague Committee publishes the letter of a German officer who, in passing through France, was asked whether the enemy's troops were at dinner. We sing a military song entitled, "We will meet again at home," after which the Kaiser said and said, "Concourse," we should not expect this meeting to occur very soon, as very probably you will once more see the roses blooming in the springtime.

LONDON.—The Admiralty announces the sinking of the Belgian liner Prince Albert, which struck a mine in the North Sea today. The crew were all saved.

GENEVA.—The Belgian government has dispatched a telegram from the Russian theater of war announcing that the Russians continue their stubborn resistance against the Austrian attacks near Sokal, which continue in spite of the heavy losses inflicted by the Austrians. To the south of Czernin and Linz the Austrians were forced to abandon several important railway stations after losing 10,000 men. The Austrians retired from these positions to the south east of Novo-Alexandrovsk for a distance of 10 kilometers.

CHRISTIANIA.—Rudher is very scarce in Norway, greatly to the inconvenience of automobile traffic. Many Norwegians have been obliged to leave owing to a lack of horses. The Royal Automobile Club and the Foreign Office are trying to obtain permission from England in order to buy in London a limited supply of manufactured rubber.

NEW YORK.—The Belgian Government has placed an order for 30,000 Cavalry blankets on the American market, thereby bringing the total blanket orders from that country to 400,000. Italy is also said to have closed a large blanket contract here.

PARIS.—Official. During the day there has been no incident reported from that portion of the front extending from the North Sea to the Vosges. In all areas we occupied two of the enemy's blockhouses, east of Langres and Scherzenbach.

PARIS.—Official. North of Soissons, the Germans after a strong bombardment, delivered last night several attacks against three of our positions, but after a very spirited combat they were driven out of the trenches, which they had succeeded in occupying with the exception of our point, where they retained 20 yards, which they stopped in the advanced positions of our front.

The town of Soissons was bombarded yesterday evening. In Argonne, in the vicinity of Fontaine-Aux-Carmes, the enemy undertook an attack but we drove back to their trenches by our infantry fire.

At the end of the front the night before, our forces were still silent.

From the Dardanelles front, there is nothing of importance to report, with the exception of some slight progress on the part of our troops on the Gallipoli peninsula.
